

The history should be remembered

The members of the Czech Christian Senior 's Association – SKS are participating to the important historical events. This year they took a considerable part in co-organizing the meeting in memory of special military units PTP for politically unreliable men during the totalitarian communist regime founded just 70 years ago in September 1950. These men were considered at that time as enemies of the ruling communist party. Every year traditional commemorative meeting have been organized at a locality of the former PTP military camp *Svata Dobrotivá* with the respective government organs, local authorities and NGOs. *Because of covid-19 the meeting had a modest dimension.*

Lidmila Nemcova on behalf of the SKS was emphasizing in her speech the necessity to transmit to young people the personal experiences of our seniors members, the democratic way of thinking and acting. The real objective history should be remembered, the inter – generation cooperation is necessary and a fragile democracy in our country should be cultivated.
